ECOPRO WINDOWS, GLASS AND BLINDS

Aluminum Tilt & Turn Windows

EcoPro product guide based on Skyview’s published information

The 8100 sash tilts inward at the top for ventilation or swings fully inward. Skyview lists double- and triple-pane Low-E options for this series.

Features and configuration

- Two opening modes: inward tilt and full inward swing.
- Nominal frame depths of 81 mm and 141 mm, with a 44 mm thermal break.
- Double- or triple-pane Low-E insulating glass with argon and a warm-edge spacer.
- Three-seal design and multipoint locking.
- Anodized, powder-coated and PVDF finishes listed by Skyview.
- Fibreglass or stainless-steel screen mesh options.
- Published U-values: 1.8 W/m²·K for double glazing and 1.4 W/m²·K for triple glazing. Confirm the rating for the specific configuration.

Confirm dimensions, options and applicable ratings for the selected configuration.
